Portland, Ore. 97208-3623

Dear Regional Forester Goodman,

In the interest of better understanding of our position, The MRA, Motorcycle Riders Association, has had and still has issues with the High Cascade Ranger District on the short OHV riding time in the Prospect OHV Trail System. This is a great system. It's scenic and well kept. It's just too short (3 1/2 months).

A lot is heard about Elk Winter Range. Winter Range is over May 1 to Nov. 1. We, the MRA and all other OHV'ers, feel that May 1 to Nov. 1, would be a more appropriate riding season. Snow season, fire season, and green dot would of course see closures. The district really needs to think about this. Money is available.

Sincerely,
